

You ask
around.

The best way to find a good new service or trade is to ask people for a recommendation.

We are a group of local trades people and professional services, who trust and recommend each other.

We are all local, know each other and have worked together over the years.

Just call any of the people in this leaflet if you are looking for their specific local service.

Keep this leaflet for when you need any of our services.

Please mention Gateway 2 Business when contacting anyone in this leaflet.

Better business with Gateway 2 Business

Running a local business and looking for more customers?

Referrals and recommendations tend to be the most effective and the least expensive form of developing a business – yet many companies do not have a strategy in place to maximise their potential.

Gateway 2 Business (G2B) helps you to develop this strategy. Our G2B group is a strong contact network of trade and professional people. All the companies in this leaflet are local businesses who are members of G2B, the only local business organisation focused solely on the Ruislip, Harrow and surrounding areas. We trust and recommend each other for both domestic and business work and are now pleased to offer our services to you as well.

If you are interested in joining this thriving local business network then please visit www.gateway2business.co.uk
